

HOW TO PREPARE FOR COCKROACH BAIT TREATMENT

THE PESTFORCE INC WILL BE PROVIDING A COCKROACH CONTROL SERVICE IN YOUR RESIDENCE
ON _____ STARTING BETWEEN **9 AM TO 5 PM.**

PRIOR TO TREATMENT

- Remove all the items from under the kitchen sink as well as washrooms sinks.
- The top of refrigerators and stoves must be cleared.
- These items can be placed in the living room floor and do not require to be covered.
- If you can, please pull out fridge and stove so that the technician can have access behind the fridge and stove.

ADDITIONAL RECOMMENDATIONS

- After our treatment is complete, all items can be put back in place.
- Remove all the dead cockroaches (vacuum can be done).
- Clean! All kitchen and bathroom surfaces must be clean and grease free, especially those areas around the fridge, stove, microwave and toaster. Also, under the sinks as well.
- Reduce clutter! Roaches feed on a huge variety of items and hide in cluttered areas, especially those near sources of heat and moisture.
- Throw out garbage daily and ensure dirty dishes are not left out overnight. Fix dripping taps or leaking pipes. Replace old or ripped shelf paper.
- PLEASE DO NOT remove treated baits or harsh cleaners, as these will render our treatment ineffective.

SAFETY INFORMATION

Do not need to vacate before or after the treatment

Please avoid touching the treated areas

THANK YOU FOR YOUR CO-OPERATION
