

## **HOW TO PREPARE FOR A COCKROACH CHEMICAL TREATMENT**

THE PESTFORCE INC WILL BE PROVIDING A COCKROACH CONTROL SERVICE IN YOUR RESIDENCE  
ON \_\_\_\_\_ STARTING BETWEEN **9 AM TO 5 PM**

### **PRIOR TO TREATMENT**

- All the items must be removed from kitchen cupboards as well as washrooms, especially under the sinks.
- The kitchen dining room and washroom floor must be cleared. Also, move everything 2 feet away from kitchen, dining room and washroom walls.
- The top of refrigerators and stoves must be cleared.
- These items can be placed on the living room floor and do not require to be covered
- Please pull out the fridge and stove so that the technician can have access behind the fridge and stove.
- If heavily infested, please clear the areas around the baseboards as much as possible, in order to give access to the baseboards for treatment.

### **ADDITIONAL RECOMMENDATION**

- Throw out garbage daily and ensure dirty dishes are not left out overnight. Fix the dripping taps or leaking pipes. Replace old or ripped shelf paper.
- After the treatment is completed all items can be put back in place.
- Remove all the dead cockroaches (vacuum can be done).
- Clean! All kitchen and bathroom surfaces must be clean and grease free, especially those areas around the fridge, stove, microwave and toaster. Also, under the sinks as well.
- Reduce clutter! Roaches feed on a huge variety of items and hide in cluttered areas, especially those near sources of heat and moisture.
- PLEASE DO NOT use insecticide sprays or harsh cleaners, as these will render our treatment ineffective.

### **SAFETY INFORMATION**

All people and pets must vacate premises for a minimum of **THREE (3) to FOUR (4) HOURS**

People with allergies, respiratory issues, pregnant or illnesses must vacate premises longer than **FOUR (4) HOURS**

Aquariums must be covered and filters should be turned off

Please avoid touching the treated areas

**THANK YOU FOR YOUR CO-OPERATION!**
