HOW TO PREPARE FOR COCKROACH PREVENTATIVE CHEMICAL TREATMENT

THE PESTFORCE INC WILL BE PROVIDING A COCKROACH CONTROL SERVICE IN YOUR RESIDENCE
ON _____ STARTING BETWEEN **9 AM TO 5 PM.**

PRIOR TO TREATMENT

- Remove all items from under the kitchen sink as well as washroom sinks.
- The top of refrigerators and stoves must be cleared.
- The kitchen dining room and washroom floor must be cleared. Also, move everything 2 feet away from kitchen dining room and washroom walls.
- These items can be placed in the Livingroom floor and do not require to be covered.
- If you can, please pull out fridge and stove so that the technician can have access behind the fridge and stove.

ADDITIONAL RECOMMENDATIONS

- After the treatment is completed, all items can be put back in place.
- Remove all the dead cockroaches (you can vacuum).
- Clean! All kitchen and bathroom surfaces must be clean and grease free, especially those areas around the fridge, stove, microwave and toaster. Also, under the sinks as well.
- Reduce clutter! Roaches feed on a huge variety of items and hide in cluttered areas, especially those near sources of heat and moisture.
- Throw out garbage daily and ensure dirty dishes are not left out overnight. Fix the dripping taps or leaking pipes. Replace old or ripped shelf paper.
- PLEASE DO NOT use insecticide sprays or harsh cleaners, as these will render our treatment ineffective.

SAFETY INFORMATION

All people and pets must vacate premises for a minimum of THREE (3) to FOUR (4) HOURS

People with allergies, respiratory issues, pregnant or illnesses must vacate premises longer than FOUR (4) HOURS

Aquariums must be covered and filters should be turned off

Please avoid touching the treated areas

THANK YOU FOR YOUR CO-OPERATION!
