HOW TO PREPARE FOR A BED BUG STEAM + CHEMICAL TREATMENT

PESTFORCE INC WILL BE PROVIDING BED BUGS CONTROL SERVICE IN YOUR RESIDENCE
ON _____ STARTING BETWEEN **9 AM TO 5 PM.**

PESTFORCE will introduce BED BUGS STEAM + CHEMICAL TREATMENT. The treatment will be controlling the bed bugs with steam and chemical. We will target steaming the eggs and spraying chemical to control the bed bugs. Please perform the following preparation steps.

PRIOR TO TREATMENT

- Reduce clutter in the entire residence, especially in bedrooms and living room.
- Vacuum the whole house or suite, and throw out the vacuum bag or clean the vacuum immediately.
- Move everything 2 feet away from the walls. Heavy items and electronic equipment may be left in place. Stand mattress and box spring upright against the walls.
- Children's toys should be covered and placed in a safe place.
- PLEASE DO NOT place items on top of beds, chairs, sofas and couches. The heat or laundry items should be bagged and bagged items can be placed in the living room, or on the counters and tables.
- If heavily infested, heat all laundry especially bedding in the dryer for 20 minutes on high to kill bed bugs and eggs inside. Dry clean as needed. Eg: clothes, bedding, curtains, couch cushions, futon covers, etc.

ADDITIONAL RECOMMENDATIONS

- Please vacuum daily for the first week after treatment. Do regular vacuuming, that will reduce the bed bug population.
- Remove all dead bugs (vacuuming can be done).
- Do laundry regularly especially bedding and sofa blankets.
- If heavily infested, we will remove the plastic or non-bedbug proof mattress covers, as well as dust cover backing on the underside of box springs, most sofas and other upholstered furniture. If baseboards are infested, technician will recommend to loosen baseboards from the walls.

SAFETY INFORMATION

All people and pets must vacate premises for a minimum of THREE (3) to FOUR (4) HOURS

People with allergies, respiratory issues, pregnant or illnesses must vacate premises for longer than FOUR (4) HOURS

Aquariums must be covered and filters should be turned off

Please avoid touching the treated areas

THANK YOU FOR YOUR CO-OPERATION!
