## **HOW TO PREPARE FOR MICE ENTRY POINTS SEAL UP TREATMENT**

THE PESTFORCE INC WILL BE PROVIDING MICE CONTROL SERVICE IN YOUR RESIDENCE

ON \_\_\_\_\_ STARTING AT BETWEEN **9 AM TO 5 PM.**

THE PESTFORCE we kindly ask you to co-operation for mice entry points seal up we are going to seal and fix the holes around plumbing and heating pipes, that mice are entering to your suite

### **PRIOR TO TREATMENT**

All the heat registry must be cleared and remove all items around the heat pipes at least two feet to ensure our technician can have an access.

Remove all the items from under the kitchen and bathrooms sinks.

Fridge and stove should be moved from the walls.

### **ADDITIONAL RECOMMENDATIONS**

Highly recommend installing external bait stations around the building to prevent from mice

Kitchen countertop, surfaces must be clean and grease free, especially those areas around the fridge, stove, microwave, and toaster.

Reduce clutter! Mice hide in cluttered areas, and they use paper to build nests. Ensure the area next to the outside walls and the garage, crawlspace, attic, storage areas, are neat and tidy

Throw out garbage daily and ensure dirty dishes are not left out overnight.

Ensure pet food is secured in sealed heavy-duty plastic containers and is not left out after the pets have fed, also bird food.

Exterior entry points and gaps should be sealed or fixed, recommend having a door sweeper for all the doors especially connecting to the outside, also keep doors closed at all the time.

### **SAFETY INFORMATION**

Do not need to vacate before or after the treatment

Do not touch the bait station keep a way children and pets

**THANK YOU FOR YOUR CO-OPERATION**
