HOW TO PREPARE FOR MICE TREATMENT

THE PESTFORCE INC WILL BE PROVIDING MICE CONTROL SERVICE IN YOUR RESIDENCE
ON _____ STARTING AT BETWEEN **9 AM TO 5 PM.**

PRIOR TO TREATMENT

Remove all the items from under the kitchen and bathrooms sinks.

Fridge and stove should be moved from the walls.

AFTER THE TREATMENT ADDITIONAL RECOMMENDATIONS

Interior and exterior mice entry points should be sealed.

Highly recommend installing external bait stations around the building.

Kitchen countertop, surfaces must be clean and grease free, especially those areas around the fridge, stove, microwave and toaster.

Reduce clutter! Mice hide in cluttered areas, and they use paper to build nests. Ensure the area next to the outside walls and the garage, crawlspace, attic, storage areas, are neat and tidy.

Throw out garbage daily and ensure dirty dishes are not left out overnight.

Ensure pet food is secured in sealed heavy-duty plastic containers and is not left out after the pets have fed, also bird food.

Exterior entry points and gaps should be sealed or fixed, recommend having a door sweeper for all the doors especially connecting to the outside, also keep doors closed at all the time.

SAFETY INFORMATION

Do not need to vacate before or after the treatment

Do not touch the bait station keep a way children and pets

THANK YOU FOR YOUR CO-OPERATION
